

child.

I know the claimant's husband owned at the time of his death - the place where they lived - and a place near the "Rock" - and also a "woods track". But I do not know the number of acres or value, nor could I give any idea as to the income of the claimant. I know the only income or means of support the claimant has had since her husband's death - has been from the property above referred to.

I have understood that the soldier was in debt when he died - but just the amount of these debts I could not estimate.

The claimant is not related to me - I have no interest in her claim for pension and my answers are correctly recorded.
