

up and the sum was between \$400 and \$500, and since then my mother has borrowed \$500 my father's debts have not been paid, and one of the places will have to be sold to meet the debts.

We have not divided the income from the land have simply used it for the living expenses.

The children Samuel Garfield, Walter, Lily and Sarah are still living, & live with my mother I can not give their ages - because I have paid not attention to it - can hardly give my own age.

My mother has had no income or means of support since my father's death than what has been raised on the place.

The woods land brought in no income - simply furnished us with fire wood.

My oldest brother lived on the place at "The Rock" as early as I can remember he raised 78 acres of wheat and about 11 or 12 bbls of corn - I think wheat was worth about 70¢ a bushel & corn \$1.20 per bl.

Of this \$15 had to go to Middy Harris for her down interest - and after paying interest and taxes and fertilizer bills my mother had nothing left - not over \$500 any way.

On this place we raised about 14 bbls of corn - the land was mostly in pasture for the cows and horses.

We sold us corn from other place used it to keep our stock and now have only about a bbl left to keep 2 horses and one cow until next crop season.

I have heard this deposition read and my answers are correctly recorded there in.

Howard Emery Carroll Woolford
Deponent.

Sworn to and subscribed before me this 25 day of May, 1894, and I certify that the contents were fully made known to deponent before signing.

R. F. Feltner

Special Examiner.
