

I get no income from the woods land.
My husband left ~~no~~ will and I have
only a widow's interest in the property above
mentioned.

My children and I live as one family and
the crops were not divided, went for the
support of the common family.

The land above referred to is all low and
swampy - and poor - and not productive.

Thomas Dickerson has been my attorney
in settling my husband's estate.

I do not know that I care to have any
other witnesses examined as to date of birth
of children, marriage, non-marriage, non-divorce,
and property and dependence than those who
have already testified.

I do not care to be present in person or
by attorney at the taking of testimony.

I have comprehended the questions asked
me and my answers are correctly recorded.
