

or rupture which he contracted while in the army. In my opinion he has been one half ($\frac{1}{2}$) disabled since his discharge for manual or farm labor. - No one will hire him regularly on account of his disability as it is generally known that he is ruptured. I think he gets worse as he becomes older. I can no other statement. I am not related or interested in this matter. His questions were understood and my answers are correctly recorded in this deposition.
