

I had some children and I remember  
 that they were all in the  
 hospital, and I think they  
 were all in the hospital  
 and I think they were all  
 in the hospital and I think  
 they were all in the hospital

I have the date of the death of  
 my children in the date of the birth  
 of all my children in a little book  
 which I have from me so I can tell you  
 when the word of my husband's death and  
 my birth was in the bible that I lost  
 I lost my bible when I was serving  
 sometime during the war after my  
 husband died I have a letter from Nelson

The child that died was next to Nelson  
 I think Nelson is about 39 years old  
 she was born here in Hagerstown and  
 there was 100 years between each of the  
 other children

My husband died in Hagerstown  
 Md. I can't tell exactly when but a year  
 or so before the war broke out.

Nelson Nelson died the second  
 summer after Grant was elected the  
 second time, in June, he died at the  
 hospital in Washington, D.C. he  
 never did any work to amount to anything  
 after he came from the army

I claim a pension because I am hard  
 to able to work and I am afraid I shall  
 lose the sight of my eye I have the  
 inflammation so bad I can hardly get  
 along

My son went into the army when  
 I think it was very early and I am  
 sure that he was very well  
 and I think he was sound and healthy then  
 when he came home some time ago  
 and I think he was in the army for some  
 time and I think he was very well
