Wm E. McLeare

Acting Commissioner

I have been acquainted with James Hill since 1856 he was a sound and hearty man at that time he worked more or less for my father until he enlisted & saw him first - After he come home from the Army, in September 1863 and heard him complain of weakness in the bowels of which I know he has suffered considerable have knowing him to quit work on account of same, I have seen James Hill more or less every month since his discharge from the army. I am personally acquainted with him

Very Resp
