

at the farm. There was a fight
somewhere near the hospital
about that time. I could hear
the shooting while I was lying
in the hospital.

I think he was wounded in
Virginia. I did not know his
getting wounded in N.C.
I forgot the name of the hospital
I was in and to which he was sent,
but I am sure it was in Va
and it was a regular hospital.
I testified that I saw the Hood on
the side of his face. I saw the
wound near his eye a few days
after he came in the hospital
& when he got walking around.
It looked like a ball had glanced
through it. Has no interest in this
case.

This is the only Parker in whose
claim I have testified.
