

of this wife, Martha Harris, but am not certain whether I found it. I found the following record:-
Record Book #12, P. 316 - Martha Harris, married, Colored, Saunders, aged 33 years, died Apr. 21, 1892.

The soldier's wife should have been more than 33 years at death, as her age is given as 33 years at the date of marriage in 1884, but this is the only record I can find that is at all acceptable in this case. I found a record of the death of another Martha Harris, Colored, but her age was 75 years. The records are only brought down to Aug. 25, 1893. The record goes steadily on, but since that time the record is in the shape of death certificates.

It appears to me a decision may be reached in this case without further testimony.

Very respectfully,
N. N. Hill,

Special Examiner.

Hon. Commissioner of Pensions.
