

IMPORTANT NOTICE.—Testimony is much better when the affidavit is wholly in hand writing of the affiant, in which event the affidavit must conclude with an averment that :

"This statement is in my own hand writing, and in the making of the same I used no written or printed statement, nor was I aided or prompted by any recital, prepared or dictated by any other person, and not attached as an exhibit to this affidavit."

If the affidavit is not in hand writing of the affiant, then the following averment must be added:

"And I further swear that the foregoing testimony was all written in my presence, and only from my oral statements then made. That I dictated said affidavit on the * * * day of * * * 189 * to * * * at the office of * * * in the town of * * * and that the same was then and there reduced to writing by him from said oral statements, and that in making the same, I did not use and was not aided nor prompted by any written or printed statement or recital, prepared or dictated by any other person."

The proper averment must be written in the body of the affidavit by the same person who writes it as its last paragraph. This is required by "Order 229."
