

attached to

James Benson
 is wholly un-
 reliable. He is
 a chronic witness
 He testified in the
 Case of Benj. T. Barby
 No. 6482610 and
 admitted to me that
 he has no knowledge
 of whatever of the
 facts to which he has
 sworn and that he
 has signed affidavits
~~in numerous other~~
 cases without knowing
 what he has signed.
 He should be very closely
 cross-examined.

It is fairly probable that this is not the same person as the one mentioned in the case of Barby. He is a chronic witness and has signed affidavits in numerous other cases without knowing what he has signed.
