

internals of comparative good health, Soldier was sick with one, or all of the diseases alleged by him, and that he did very little active duty as a soldier on that account. Continuance of alleged disability is not fully shown by the testimony herewith. I believe this claim is meritorious, and recommend further examination, as to condition of claimant from the time he arrived home in the Fall of 1866, until he moved from Onancock, Accomac Co, Va to this city which was in 1869, or 1870. of James Hickman, Storekeeper. (3) three miles from Drummondtown. Accomac Co Va. of George Powell, Onancock. Accomac Co, Va, and of Thomas Powell whose specific address can be obtained from his brother George, as above.

It is possible some of the Hickman family other than James, above mentioned, may be living in, or near Drummondtown, if so they might be seen, and examined.

Dr. Dix who treated Claimant while he lived in Accomac Co, Va. I know is dead, his Widow who I understood rode with the Dr a great deal, now lives at Parksley, Accomac Co Va. knowing personally his characteristics. I feel certain she will be able to furnish rather good evidence as to the Drs treatment.

Her name is Lydia Farnette. Dix, now at
Parksley, Accomac Co, Va.
