A Perfect Shampoo in Five Minutes

"Much depends on what you use when shampooing," says Mae Martyn, in the Los Angeles News. "Great injury is often done the hair and scalp by employing harmful mixtures for this purpose, while a simple thing like canthrox almost works wonders in cleansing the hair and scalp.

"After a canthrox shampoo the scalp is soft and pliant and the hair will have regained its original lustre and fluffiness and is easier to do up.

"Dissolve a teaspoonful of canthrox in a teacup of hot water and shampoo the head well with this, then rinse thoroughly and dry. You will be agreeably surprised at the result.

"While canthrox is not expensive, you should be careful to get an original package.
