ties. This exhibition ... open to the public during those periods when meetings will be in session behind closed doors in a separate convention hall.

In a communication signed by the National Chairman of the Eastern Fisheries Association, it is pointed out that because the purpose of this convention can best be served by all factors in the fishing industry being adequately represented, it is expected that attendance will include men from every branch of America's commercial fisheries, since the convention will be of equal importance to the largest vessel fleet owner and to the individual crabber and tonger, to the packer of nationally known brands of crab meat and to the humblest producer of seafood specialties. The communication goes on to state that "the 1937 Bi-Annual Convention will be given over to frank discussion of common problems by the many separate branches of the fishing industry, providing the only available means for planning and orderly progress. The convention is designed to bring together representatives of all commercial fishing interests, members of state and federal conservation departments, certain national and state legislators and representatives of the sports fishing organizations, all of whom are equally interested in so guiding pending fisheries legislation that no section of the fisheries need suffer."

HUNTERS BEWARE OF GOVERNMENT CCC CAMPS

There are thirty-two CCC Camps located in Maryland and the young men of these camps have done excellent work and need your cooperation. Therefore, we appeal to you at this time to be careful when you go hunting not to shoot toward a CCC Camp or in the vicinity where men are working. In fact, there should not be any hunting done within one-quarter of a mile of any CCC Camp or where men are at work either on roads or in the forest and we request your cooperation in preventing the injury of anyone through negligence on your part. Look before shooting.

By cooperating in this manner you may save a life, which is much more valuable than any species of game you could possibly kill.

We are requesting superintendents of all CCC Camps to post notices one-quarter of a mile from their respective camps, and request your cooperation in prohibiting hunting within said area.

Also, when the hunting season comes on be very careful and assist us in preventing the "red menace" from destroying our forest areas. Do not drop matches or empty your pipe or throw a lighted cigar or cigarette on the ground. If you desire to get rid of either, put your foot on same and be sure the fire is out before leaving the spot. Your cooperation will prevent serious forest fires.

CUMBERLAND . . . Milk producers and dairy managers, meeting with Mayor Thomas W. Koon, failed to reach an agreement on a proposed price increase in the Cumberland area and decided to hold another meeting this week. The proposed increase is 1 cent a quart.

WHEN big capacity for grinding feed can be had at a popular price as in this new Model "G" Case Hammer Mill, we think the news is worth shouting about. And so we invite, yes urge you to see what we believe is the biggest grinder bargain yet made available to feeders. You'll be astonished at its facilities for quick grinding of all grain and forage crops and with surprisingly little power.

The grinding method is the most efficient known. Twenty semi-rigid hammers reduce the material by impact in the air. All rotating parts on one shaft with two over-size ball-bearings. Lessens friction and insures long life. Remarkably simple. Only two places to oil. Unusually sturdy construction. Larger size with self feeder and two governors. Also power-contained mill for portable work. Any one of these mills permits new economies in feeding.

CASE

RUBINOFF AND HIS VIOLIN

Rubinoff and his violin, the star feature on Chevrolet's Musical moments program, has been renewed for the seventh consecutive time. This program comes to you through the facilities of WFBR each Tuesday and Thursday at 6.45 to 7 p. m.

The fact that the Chevrolet Motor Company chose Rubinoff to lead Musical Moments for the seventh consecutive time is not surprising. His name stands very high among our leading radio stars today. Nor was it surprising that WFBR was chosen to broadcast this program because its name stands very high among the country's leading radio stations. Therefore, it is without fear of contradiction that we say to you, "For the best that radio has to offer"
