Dr. SCUDDER'S CELEBRATED EYE WATER.

For inflammation and weakness of the Eyes.

THE great advantages of this infallible remedy, places it as a general appendage to every family, and a constant *re-medeum* to the traveller. This Eye Water is prepared with the greatest care, and has never been known to fail in effecting a speedy and safe Restoration of the diseased organs. It is useless to attach any certificates by way of praise or commendation, the reputation and immense sale that has attended Dr. Scudder's Eye Water, being the first proof of its utility and beneficial tendency. It has been the means of preserving sight to many of the afflicted, from the helpless infant to the aged parent. Numerous letters have been received by Dr. S. within these few years, containing flattering remarks relative to this Eye Water—and the cures effected by it, have been set forth as Wonderful beyond precedent. Dr. Scudder confidently recommends it as a safe and valuable remedy—and he trusts that his reputation and experience as an Oculist, will weigh against the gross impositions which are daily practised on the public by advertisements of different kinds of Eye Water, many of which are unsafe to use.

Prepared by **Dr. JOHN SCUDDER,** Oculist and Inserter of Artificial Human Eyes, City of New York, and to be had wholesale and retail of **Dr. S. W. SPENCER,** Sole Agent for Dr. S. in Easton, &c. d-c-22

General Agricultural & Horticultural Establishment.

CONSTITUTIONAL School and Book-Store, 201 North Second Street, between the American Farmer, at No. 16, S. Calvert St. Baltimore, in connection with a Stock and Experimental Farm, Garden and Nursery, in the vicinity.

The subscriber, proprietor of the above named establishment, respectfully informs his former customers, and the public generally, and desires particularly, that he is prepared to execute orders in any or all of his departments, and he is desirous to feel interested in his plan to furnish him with their address, (free of expense to him) on receipt of which he will forward to them an extra number of his paper, the American Farmer, containing a full description of the establishment, and a priced catalogue of Seeds, &c. for sale. In every village in the Union, a quantity large or small of **GRASS SEEDS,** would find a ready and profitable sale, and the advertiser is prepared to send Seed strictly with a view to supply dealers on very liberal terms, for cash or acceptance in State notes, with first rate seeds, prepared and labelled, put up in boxes expressly for country dealers. He ventures to affirm, that for those who desire any of the articles comprised in his general establishment, there is not in the United States a more eligible place, than this to apply for them, as it is a repository in which are concentrated, or may be procured in short notice, from all parts of the country (and not a few from remote parts of the earth) a vast variety, many of which are very rare and valuable, such as plants, trees, seeds, sines, domestic animals, books, and last, though not least, a complete and full and important information on almost every subject interesting to a cultivator of the soil. This is imparted weekly to subscribers for a small annual contribution, through the columns of the American Farmer, in which are indicated also, by an advertisement, and otherwise, the supplies of choice commodities, both animal and vegetable, as they are received at the establishment. The subscriber is agent also for the principal nurseries in the United States—and for several celebrated breeders of fine cattle, sheep, and other domestic animals—also for the United Society of Shakers, at New Lebanon, N. Y. a full assortment of whose celebrated garden seeds, fresh and genuine, may at all times be had from him wholesale and retail, on the best terms. A Book of Specimens can be seen at this Office, or it can be had on application to the Agent.

TO PRINTERS—E. WHITE & WM. HAGER respectfully inform the printers of the United States, to whom they have been individually known as **LETTER FOUNDERS;** that they have now formed a copartner ship in said business, and hope from their united skill and extended facilities, to be able to give full satisfaction to all who may favour them with their orders. The introduction of machinery, in place of that tedious and unhealthy process of casting type by hand, long a desideratum by the European and American Founders, was by American ingenuity, and a heavy expenditure of time and money on the part of our senior partner, first successfully accomplished. Extensive use of the machine has fully tested and established its superiority, in every particular, over that cast by the old process.

The letter foundry business will hereafter be carried on by the before named, under the firm of White, Hager & Co. Their specimen exhibits a complete series from 10 Diamond to 14 lines Pica; the book and news type being in the most modern and light style.

White, Hager & Co. are agents for the sale of the Smith and Rust Printing Presses, which they can furnish to their customers at the manufacturers' prices.

N. B. Newspaper proprietors who give the above three insertions, will be entitled to five dollars in such articles as they may select from our specimen.

A New, Cheap, and Popular Periodical, ENTITLED THE SELECT CIRCULATING LIBRARY.

Containing equal to Fifty Volumes for five Dollars

PROSPECTUS.

IN presenting to the public a periodical of this new and interesting character, it will be expected that the publisher should describe his plan, and the objects he has in view to accomplish.

There is growing up in the United States a numerous population, with literary tastes, who are scattered over a large space, and who, distant from the localities whence books and literary information emanate, feel themselves at a great loss for that mental food which education has fitted them to enjoy. Books are cheap in our principal cities, but in the interior they cannot be procured as soon as published, nor without considerable expense. To supply this desideratum is the design of the present undertaking, the chief object of which emphatically is, to make good reading cheaper, and to put it in a form that will bring it within every man's door.

Books cannot be sent by mail, while "The Select Circulating Library" may be received at the most distant post office in the Union, at not more than twenty-five cents after it is published, at the trifling expense of two and a half cents, or in other words, before a book could be bound in Philadelphia, our subscribers in Ohio or Vermont may be receiving it in their parlours.

To elucidate the advantages of "The Select Circulating Library" such as we propose, is only necessary to compare it to some other publications. Take the Waverly novel for example; the Chronicles of the Camerogans occupy two volumes, which are sold at \$1.25 to \$1.50. The whole would be readily obtained in three numbers of our paper, at an expense of thirty-seven cents, postage included; and that number and three times the quantity of literary matter can be supplied for the same money by adopting the newspaper form.—But we consider transmission by mail and the early receipt of a new volume, as a most distinguishing feature of the publication, and one which will be placed in a footing with those of the most valuable, and will be supplied at their own homes with equal, if not more Fifty Copies of the common London novel cost Five Dollars. This may not take a year or two to accomplish; for though not longer than one week will elapse between the issuing of each number, the press is very busy, and the number of subscribers required to contain a whole work, the proprietor will feel himself at liberty to publish at shorter intervals—fifty or two numbers being the equivalent of five dollars.

Arrangements have been made to receive from London every copy of every new book, issued either in the Empire, or in England, together with the periodical literature of Great Britain. From the former we shall select the best Novels, Memoirs, T. Tracts, Sketches, Biography, &c. and publish them with as much rapidity and accuracy as an extensive printing establishment admits. From the latter, we shall select the most valuable, and will be placed in a footing with those of the most valuable, and will be supplied at their own homes with equal, if not more Fifty Copies of the common London novel cost Five Dollars. This may not take a year or two to accomplish; for though not longer than one week will
