PRINTERS - E. WHITE & WM. HAGER respectfully inform the printers of the United States, to whom they have been individually known as LETTER FOUNDERS, that they have now formed a partnership in said business, and hope from their united skill and extensive experience, to be able to give full satisfaction to all who may favour them with their orders. The introduction of the healthy process of casting type by hand, long a desideratum by the European and American Founders, was by American ingenuity, and a heavy expenditure of time and money on the part of our senior partner, first successfully accomplished. Extensive use of the machine cast letter, has fully tested and established its superiority, in every particular, over that cast by the old process.
The letter foundry business will hereafter be carried on by the before named, under the firm of White, Hager & Co. Their specimen exhibits a complete series from Diamond to 14 lines Pica; the book and news type being in the most modern and light style.
White, Hager & Co. are agents for the sale of the Smith and Rust Printing Presses, which they can furnish to their customers at the manufacturers' prices.
Chases, Cases, Composing Sticks, Ink, and every article used in the Printing Business, kept for sale, and furnished on short notice.
Old Type taken in exchange for new at nine cents per pound.
N. B. Newspaper proprietors who give the above three insertions, will be entitled to five dollars in such articles as they may select from our specimen.

Dr. SCUDDER'S
CELEBRATED EYE WATER.
For inflammation and weakness of the Eyes.
THE great advantages of this infallible remedy, places it as a general appendage to every family, and a constant *vide-mecum* to the traveller. This Eye Water is prepared with the greatest care, and has never been known to fail in effecting a speedy and safe Restoration of the diseased organs. It is useless to attach any certificates by way of praise or recommendation, the reputation and immense sale that has attended Dr. Scudder's Eye Water, being the fairest proof of its utility and beneficial tendency. It has been the means of preserving sight to many of the afflicted, from the helpless infant to the aged parent. Numerous letters have been received by Dr. S. within these few years, containing flattering remarks relative to this Eye Water—and the cures effected by it, have been set forth as Wonderful beyond precedent. Dr. Scudder confidently recommends it as a safe and valuable remedy—and he trusts that his reputation and experience as an Oculist, will weigh against the gross impositions which are daily practised on the public by advertisements of different kinds of Eye Water, many of which are unsafe to use.
Prepared by
Dr. JOHN SCUDDER,
Oculist and Inserter of Artificial Human Eyes, City of New York, and to be had wholesale and retail of Doct. S. W. SPENCER, Sole Agent for Dr. S. in Easton, &c.

A New, Cheap, and Popular Periodical.
ENTITLED THE SELECT CIRCULATING LIBRARY.
Containing equal to Fifty Volumes for five Dollars
PROSPECTUS.

Presenting to the public a periodical entirely new in its character, it will be expected that the publisher should describe his plan, and the objects he hopes to accomplish. There is growing up in the United States a numerous population, with literary tastes, distant from the localities where books and literary information emanate, feel themselves at a great loss for that mental food which education has fitted them to enjoy. Books are cheap in our principal cities, but in the interior they cannot be procured as soon as published, nor without considerable expense. To supply this desideratum in the design of the present undertaking, the chief object of which emphatically is, to make good reading cheaper, and to put it in a form that will bring it to every man's door.

The books cannot be sent by mail, while "The Select Circulating Library" may be procured at the most distant post office in the Union, and from fifteen to twenty five days after it is published, at the trifling expense of two and a half cents; or in other words, before a book could be bound in Philadelphia, our subscribers in Ohio or Vermont may be perusing it in their parlors.

To elucidate the advantages of "The Select Circulating Library" such as we propose, it is only necessary to compare it to some other publications. Take the Waverly novels for example, the Chronicles of the Cannanoe occupy two volumes, which are sold at \$1.25 to \$1.50. The whole number of copies contained in three numbers of this periodical, would contain thirty-seven cents, postage included. So that more than three times the quantity of literary matter can be supplied for the same money by adopting the newspaper form—But we consider transmission by mail and the early receipt of a new book, as most desirable, and will be placed on a footing with those nearer at hand, or can be supplied at their own homes with equal to about Fifty Volumes of the common London novel size for Five Dollars. This may not take fifteen weeks to accomplish, for though not longer than one week will elapse between the issuing of each number, yet when there is a press or other interesting matter, or when two or more numbers are required to contain a whole work, the proprietor will feel himself at liberty to publish at shorter intervals—fifty-two numbers being the equivalent for five dollars.

Arrangements have been made to receive from London a copy of every new book printed either in that metropolis or in Edinburgh, together with the periodical literature of Great Britain. From the former we shall select the best Novels, Memoirs, Tales, Travels, Sketches, Biography, &c. and publish them with as much rapidity and accuracy as an extensive printing office will admit of. From the latter, such literary intelligence will be procured as will prove interesting and entertaining to the lover of knowledge, and science, literature, and novelty. Good standard novels, and other works, now out of print, may also occasionally be re-processed in our columns.

The publisher confidently assures the heads of families, that his object is not to draw away from their domestic circle, as the gentleman who has undertaken the editorial duties, to literary tastes and habits, adds a due sense of the responsibility he assumes in carrying on an extended and moral community, and of the consequences, detrimental or otherwise, that may result from the dissemination of obnoxious or wholesome mental literature. His situation and engagements afford him peculiar advantages and facilities for the selection of books. These, with the additional channels created by agencies at London, Liverpool, and Edinburgh, will be so selected, as to guarantee a faithful execution of the literary department.

It would be supererogatory to dilate on the general advantages & conveniences which such a publication presents to people of literary pursuits wherever located, but more particularly to those who reside in retired situations—they are so obvious that the first glance cannot fail to flash conviction of its eligibility.

"The Select Circulating Library" will be printed weekly on a double medium sheet of fine paper in octavo form, with three columns on a page, and mailed with great care so as to carry safely to the most distant post office.

It will be printed and finished with the same care and accuracy as books of the same size. Fifty-two numbers will form a volume, well worth preservation, of 832 pages, equal in quantity to 1200 pages, or three volumes, of Rice's Cyclopaedia.—Each volume will be accompanied with a Title page and Index.
The price is Five Dollars for fifty-two numbers of sixteen pages each,—a price at which it cannot be afforded unless extensively patronized.—
Payment at all times in advance.
Agents who procure five subscribers, shall have a receipt in full by remitting the publisher \$250.00, and a proportionate compensation for a larger number. This arrangement is made to increase the circulation to an extent which will make it an object to pay agents liberally.—
Cubs of five individuals may thus procure the work for \$4.00, by uniting in their remittance.
Subscribers living near agents, may pay their subscriptions to them; those otherwise situated may remit to the publishers, who will follow the expense. Our arrangements are all made for the fulfillment of our part of the contract.
Subscribers names should be immediately forwarded, in order that the publisher may know how many to print of the future numbers.
Editors of newspapers who give the above three or more conspicuous insertions, will be entitled to an exchange of 25 Numbers.
