the Cashier of the Schuylkill Bank, in Philadelphia, enclosed to me a dratt drawn by Jas. Reeside on you for $1000, dated the 3d of the same month, and payable 90 days after date; that the draft became due on the 1-4 Feb. 1831, and appears by the books of the office to have been paid on the 5th Feb. 1831.

"I am, very respectfully, your obt, serv't,
"RD. SMITH. Cashier.

"W. T. BARRY, Esq."

I regret that the committee did not inform me of the result of the inquiry they seem to have made of the officers of the Schuylkill Bank, or of the use they meant to make of it. The officers of that Bank could not have understood to what draft I had reference in my evidence to the committee, or they could have given no reply contradicting my testimony. A moment's explanation, if it had been allowed me, would have enabled me to have satisfied the committee in relation to the whole transaction, and saved the mortification of thus publicly vindicating myself against an imputed crime, for which there is not the slightest foundation in the fact. The country will decide upon the propriety of a committee, representing the highest assembly in this country, in thus striking down the character of a man without giving him *an opportunity of defence or explanation.*

Very respectfully, your obedient serv't,
JAS. REESIDE.

COTTON SEED OIL.

Our enterprizing fellow-citizen, Jabez Smith Esq. has succeeded in bringing to perfection the manufacture of Cotton seed oil for the use of lamps. After a fair trial, we have given it the preference over any Sperm Oil we have seen for many years. It burns with a beautiful and clear light without smoke and entirely free from any offensive smell. We congratulate the Southern country on the successful effort which has thus been made to give increased value to one its staple products The time is not far distant, when the oil from cotton seed entering as it will into competition with sperm and linseed oil in the various uses to which they are applied, will become an important item in the exports of the Southern and South Western States.

When the experiment was first made, to burn this oil in lamps, an opinion was entertained by some, that the glutinous matter could never be sufficiently extracted to answer so desirable a purpose The recent improvements of Mr. Smith have removed every doubt upon that subject; and he now offers to the public an oil, which is unsurpassed by any other article of that description.

Petersburg Intel.

A Southern editor speaking of the various kinds of fever with which Providence has seen fit to afflict the people in his vicinity, says, he hopes a REMITTING fever may more generally prevail among his distant subscribers.

Girls beware!—A young man named Wire, of Detroit left the following note for his sweetheart and went and hung himself!

"My Dear, You refused to go to church with me last evening. I know very well why you did so. You will never have an opportunity to injure my feelings again."

A good long fast.—A Spanish Journal states that a lady in Madrid, named Donna Mercedes de Mendoza, awoke on the 15th of February last from a trance, in which she had lain for four years. During that period she never tasted food, but she is now in perfect health.

Died, in London, on the 11th of April Mr. DUFIEF, author of Nature Displayed, & many other standard works.

Great News for the Ladies,—A gentleman who writes from Galena says:—"The number of males in proportion to females, on the frontiers, is at least two to one, and girls of fifteen, (I might say twelve) or widows of fifty, are alike snapped up with avidity by the disconsolate bachelors."

GINGER FOR HEAVES IN HORSES.

A correspondent of the N. Y. Farmer says that his horse, who is now in his twentieth year, has been cured of the disease called "heaves" by the use of ground ginger, a remedy recommended to him for the purpose. A table spoonful was given him daily for several weeks, mixed in his mess of indian meal and cut straw. The horse has been troubled with a wheezing and a hard cough for a year or two, and had lost flesh so much that he seemed to have nearly finished his term of service. Since the use of the powdered ginger, he has become fat, and appears to be some years younger, and in good spirits.

SAFE METHOD OF EXTERMINATING RATS.—Let those who wish to poison rats, instead of applying to the chemist, intimately mix a pound of plaister of Paris, (in its unslacked state) with about double the quantity of oat meal. Let them place this within the reach of the rats; they will eat it greedily, and without being detered by any bad taste. Through the humidity contained in their stomachs, the plarster of Paris will 'set,' and form an indigestible hard mass, which will, in fact, present upon dissection, a good cast of the rat's stomach, and speedily produce a kind of Aldermanic death, i. e. by irremediable indigestion.

Disaster at Sea.—The ship Waverly, Philips sailed from Liverpool for New York, on the 18th of April with 14 cabin passengers, and 194 in the steerage, put into Fayal on the 9th of May in distress, having sprung a leak April 30, in lat. 44, long. 34, and on the same night bore up for Fayal, keeping both pumps going, until she arrived. The preservation of the ship is attributed to the exertions of the passengers united to those of the crew, in keeping the pumps going, and throwing over about 150 tons of the cargo, consisting of bar and pig iron, boxes tin, crates, casks, &c.—*N. York Com. Adv.*

A firm of brick-makers, in Mount Vernon, Ohio, have succeeded in getting a new brick machine in operation, and with complete success. It operates by pressure, and manufactures, as the Mount Vernon Gazette states, the very first quality of bricks out of *dry clay.*—'There is a pressure of more than fifty tons upon every brick; it comes from the press as smooth as plates of polished steel can produce.—One horse makes twenty such pressures in a minute.

Extraordinary.—While certain persons in the employ of Major Bute, of Guernsey, in Ohio, were lately engaged in quarrying stone for the repair of the National Road, on the hill west of Cambridge, they found, in a petrified state, what is supposed to have been the body of an Indian child, which perhaps centuries ago, was deposited in that spot. This extraordinary specimen of ancient remains was found imbeded in a mass of solid rock, and has the appearance of a stone image, somewhat imperfect in form, yet having the general outlines of the human shape. The material of which it is composed appears to be a species of limestone. In the same cavity was also found a small row of what appear to have been Indian beads—matted together.—*Guernsey Times.*

GRAIN MARKET.

Wheat.—A cargo of prime Md. red machined, was sold yesterday at $1.10; and some parcels, by Rail Road, at $1.08 a $1.10. Lots of common to fair reds have also been sold throughout the week at 98 a 1.05 per bushel. The aggregate receipts are small, and the article is wanted. There has been no Susquehanna at market. The accounts from the country concur in representing the growing crop of wheat as of good quality and of abundant promise. A crop of prime white has been contracted for at $1.10, deliverable on or before the 20th July; and a crop of prime red on terms not transpired.

Corn.—We have to note an improvement of about six cents per bushel since our last weekly report. The market opened on Monday, for both sorts, at 62a63 cents per bushel, and since then, under the operation of a good demand and only moderate supples, prices have daily improved about a cent per bushel on the preceding day's transactions. To-day sales of white have been made at 67 cents, and yellow at 65 a 66 cents, and we quote accordingly.

Rye.—A cargo of 1100 bushels Maryland was sold yesterday at 70 cents.

Oats.—We quote 31 a 32 cents.

Congressional Globe.

In the sheet (which will be found at the several Post offices at which we have subscribers) is presented a specimen of the paper and typography, through which, after the meeting of the next Congress, we propose to mend the appearance of the Globe. No other newspaper in the United States will be found, after that period to surpass, and very few to equal, the beauty of its mechanical execution; and, we trust, by peculiar care and increased industry, to make it more worthy than it has hitherto been, in other respects, of the extensive and munificent subscription which has so enlarged its dimensions and improved its texture. To the liberal patrons of the Globe, who have followed it with their favor from a feeble semi-weekly, printed at a job press, until it has become handsomely established, in an excellent office, *of its own*, with presses types, and "all appliances to boot," we trust the unremitting efforts which we have made as our gradually increasing means have permitted, to render it worthy of the encouragement they have afforded, will be taken a proof that we are not wanting in grateful feeling for past support, nor in the *spirit* to deserve and win it, for the future, however we may fail in the requisite ability.

The present enlarged and improved publication, it will be observed by the prospectus annexed, will be given to subscribers, after the 1st of December, on the same terms on which the Globe has hitherto been furnished to subscribers.

In addition to the *Daily and Semi Weekly, and Weekly*, heretofore issued, it will be observed, that we propose to publish "*a Congressional Globe*," exclusively devoted to the proceedings and debates in Congress. Thy paper will be printed at the close of every week, during the session of Congress, and will contain, in regular series, a succint and clear account of the proceedings of each day, together with a brief and condensed report of the speeches made on every topic brought under discussion. In preparing these outlines it is our purpose to employ industrious Reporters, who will take Lloyd's Report of Debates of Congress of 1789, as a sample for imitation—and will also avail themselves, when ever it is permitted, of the notes of the speakers themselves, to prepare the sketches.

We will also endeavor, if the space will allow, to give, in the Congressional Globe, the more elaborate and finished orations upon questions of great moment, as prepared by members themselves, for the public. We hope to be able to effect this, by using brevier type, and the greatly increased page now presented by affording this weekly paper at the rate of *one dollar*, for all the numbers printed during the session, we may boast of affording the most important information, at the cheapest possible price, and we look for a reimbursement for our labor and trouble, in a very moderate profit, upon a very extensive sale and circulation of the numbers. That the subscription should be paid in advance, is therefore, rendered indispensable, and we throw ourselves upon the generosity of our friends, and ask the favor of them to volunteer their exertions to favor our object;—and we especially solicit from the Editors with whom we exchange, a gratuitous insertion of this notice, together with the annexed terms.

THE TERMS OF THE GLOBE.

Congressional Globe, *published weekly during the session of Congress*, presenting a neat abstract of the proceeding of the Senate and House of Representatives in regular series, from day to day, with brief reports of the discussion of every debated question.	$1 per session.
Daily Globe,	$10 per annum

To the Public.

THE undersigned having been appointed GEOLOGIST to the State of Maryland, deems it advisable to make known to his fellow citizens the duties which under such appointment he is required to perform, and to inform them of his readiness to satisfy their inquiries, as well as of the most convenient mode in which their application to him may be made.

It is the duty of the Geologist "to make a complete, a minute geological survey of the State, commencing with that portion which belongs to the Tertiary order of geological formation, and with the Southern division thereof, and progressing regularly with the course of the waters of the Potomac and Chesapeake through that region, and thence through the other subdivisions of the State with as much expedition and despatch as may be consistent with minuteness and accuracy, and he shall prepare and lay before the Legislature at the commencement of every session a detailed account of all remarkable discoveries made, and the progress of the work."

It shall further be his duty "at those seasons not suited to the active prosecution of the geological survey, to analyze and ascertain the qualities and properties of all specimens of mineral substances or soils left at his office or residence, for that purpose, by any citizen of the State, and taken from any portion of the Territory of the State."

In pursuance of those duties, the undersigned is about to proceed immediately to the E. Shore of Maryland, where he will remain until the end of June; after which he will visit the counties lying between the Patuxent and Potomac rivers, proposing to make his examination of this portion of the State during the months of July and August. His cabinet duties cannot therefore be commenced before the month of September. Desirous, however, that no avoidable delay should be experienced by such of his fellow citizens as are interested in the subject of his investigations, the undersigned has made arrangements with Mr. Philip T. Tyson, of the firm of Tyson & Fisher, No. 192 Baltimore street, to receive during his absence the specimens of mineral substances, soils, waters, &c. which may be submitted. Any information concerning these, not requiring to be determined on an elaborate investigation or analysis, will be furnished by Mr. Tyson—further information will be communicated by the undersigned himself at the earliest convenience.

Baltimore and Ohio Rail Road TIMBER.

PROPOSALS for the supply and delivery of sawed SCANTLING of yellow and pitch pine and white, for that part of the road between the Point of Rocks and Harper's Ferry, will be received by the subscriber at Ellicott's Mills, Md. until the first day of June next. The Scantling must be full six inches square, of sound timber, free from wind-shakes, and clear of sap, except on one corner of each piece, where one inch of sap will be admitted. It must be at least twelve feet long, but may be longer, provided it is increased in length by regular additions, that is, it may be 12, 16, 20, and so on, feet long, clear of kerf. If two or more kinds of timber are proposed for, the kind, quantity and price of each will be separately stated. Such as may be delivered by water will be deposited on the berm bank of the Chesapeake and Ohio Canal, at such point or points as the subscriber may designate; but if transported by land the proposer will state the point or points on the line of the rail road at which he can most conveniently deliver it. One third of the quantity proposed for, to be delivered on or before the first day of August—one third on or before the first day of September—and the remaining third on or before the first day of October next, without fail. The timber to be inspected on delivery, and approved by an agent of the company, before it will be accepted and paid for.—About one hundred and thirty thousand feet lineal measure will be required in the whole, but bids will be received for any quantity from one thousand feet upwards. Proposers in the Southern States, or on the navigable waters of the Chesapeake Bay, may avail themselves of the Chesapeake and Ohio Canal from the District of Columbia, or of the Baltimore and Ohio Rail Road from Baltimore, as cheap and safe modes of transportation. Proposals may be transmitted to the subscriber by mail.

150 dollars or 100 Reward.

RANAWAY from the Farm of Col. Nicholas Goldsborough, near Easton, where ch was hired, early on Sunday morning last, the 18th inst. a tall copper colored negro man, named LEVIN, about six feet high, thirty years of age, with long arms & legs, and in general a fine looking fellow, belonging to the subscriber, as Executor of Mrs. Rachel L. Kerr, deceased. This fellow made off with two other negroes, belonging to gentlemen of this county,—the one a negro lad, named JACOB, who is described to me as of a tawney complexion—about five feet seven or eight inches high—labours with his body in walking, the other a negro man named Phill, about twenty-four years of age—a dark mulatto—about five feet six inches high.

It is very certain that these fellows have made their way to Jersey or Delaware or Philadelphia, as they were seen travelling together on the main road in that direction, on Sunday morning last.

I will pay a reward of one hundred and fifty dollars for the delivery of Levin to me in Easton, or one hundred dollars for securing him so that I get him again.

M. for Baltimore, and leave Baltimore every Wednesday morning at the same hour for St. Michaels, as a regular Packet throughout the season. Freight and passage agreeable to the existing rates. The subscriber having determined to use every exertion to please those who may employ him, respectfully solicits a share of public patronage.

PETER BARWICK.
St. Michaels, may 13

N. B. The subscriber having employed Capt. Barwick for the last 7 years, both by land and water, and having the most implicit confidence in his industry, honesty and activity in business; has chartered him the above named schooner on the usual terms, the owner keeping up repairs and the Captain the expense of sailing, dividing the earnings equally, begs leave to recommend him as worthy the patronage of the public, and can give no stronger assurance of his own confidence than a pledge of sharing with Capt. Barwick the responsibility which the duties of his station lays him under to his customers.

E. N. HAMBLETON.
