COMMUNICATED FOR THE WHIG.

Mr. SHERWOOD, Sir. It is a matter ...f astonishment to me that as long as the ...ffice of Treasurer of the Eastern Shore has ...een filled by the present incumbent, and as ...bly as Talbot County has been represented ...n the Legislature during the time that it should ...ust now be discovered that the salary was not ...n proportion to the pay of other officers in the ...State Government according to the services ...rendered, and the discovery is made too by ...our youngest Delegate. Now sir if this addi...ion to his salary was actually necessary to ena...ble the State to fill that station with a competent ...person it would reflect no great credit on this ...Gentleman's colleagues who have been so much ...longer there than himself.

But to me sir, the reverse appears to be the ...fact in relation to the Treasurer of the Eastern ...Shore. If I am correctly informed the present in...cumbent has filled that station for several years ...and I have never heard even a rumour that he ...intended to resign upon any consideration, and ...much less on the score of the smallness of his ...salary: therefore to say the former salary was ...not sufficient to enable the State to get a com...petent person is to say that the present incum...bent is not competent; if it is not expressed it ...may be implied. It is either the case or the ...increase is made on some specious pretext best ...known to themselves.

Now sir, if it is otherwise, and the present ...officer is to be continued, and that too without ...requiring any additional services of him, equiva...lent to the extra allowance, then indeed it is an ...unnecessary application of the funds of an exhaus...ted Treasury which could have been much ...better applied to the education of poor children ...or in reducing the price of marriage license ...which is beyond any doubt unnecessarily high ...and very oppressive on the poor class of our ...people. The people have at last obtained the power ...in both Houses of Congress. The election of ...Mr. Walker, from Mississippi, has settled the ...long contested question between the sovereign ...power and that miserable faction which has ...disturbed and distracted the country for the last ...several years, disgraced the nation abroad; and ...as I firmly believe, been the sold cause of our ...difficulties with France, by their wretched and ...treasonable opposition to the best interests of ...the country. The people are restored to their ...rights—the Union is safe

The following are the administration mem...bers of the new Senate:

New Hampshire—Mr. Hill, Mr. Hubbard.
Connecticut—Mr. Niles.
New York—Mr Wright, Mr. Tallmadge.
New Jersey—Mr. Wall.
Pennsylvania—Mr. McKean, Mr. Buchanan.
North Carolina—Mr. Brown.
Georgia—Mr. King, Mr. Cuthbert.
Alabama—Mr. King.
Louisiana—Mr. Nicholas.
Mississippi—Mr. Walker.
Tennessee—Mr. Grundy.
Illinois—Mr. Robinson, Mr. Ewing.
Indiana—Mr. Hendricks, Mr. Tipton.
Missouri—Mr. Benton, Mr. Linn.
Ohio—Mr. Morris.

Making twenty-four members. Mr. Hendricks and Mr. Tipton have authorised a publication that they support the Baltimore nomi...nations; and we add with confidence, that Mr. White will support the principles and measures of the administration as he has heretofore done. Mr. Black, of Mississippi, also, has publicly expressed his determination to abide by the decision of his own State, which has just decided so largely in favor of Mr. Van Buren—so that on all the nominations now pending before the Senate, as well as one other matter not the less interesting to the great body of its constituents, and on which they have spoken with a voice not to be misunderstood—the people will be heard and obeyed.

Progress of commerce and wealth in Great Britain.—The exports of England in 1613 amounted to little over two millions sterling. Now they are forty millions annually. In the reign of Elizabeth in 1453 the revenue was only *half a million*—during the protectorate, 1648, treble that amount. In Anne's reign, 1706, near six millions—in George Third's 1783, over 15 million, and one year (1815) 71 millions, the largest ever known in England. In Wm. Fourth not up to 47 millions.

Coal.—The whole quantity of coal annually imported into London is estimated at 1,170,000 chaldrons. The coal trade in England employs 15,000 seamen and 2000 coal heavers, and there are 23 millions of tons raised annually. Enough remains, it is computed, for 1000 years.

Several hundreds were regaled under a booth, and among the articles on the table were 600 lbs. of meat, 100 plum puddings, 550 gallons of beer, 300 of punch, &c.

PUBLIC EXECUTIONS.—Mr. Holmes of Maine has introduced a bill into the Legislature of the State regulating the punishment of death. This bill provides that no execution shall be public, but that a jury shall be drawn, the same manner that juries are now drawn, as a jury of inspection, whose duty it shall be to witness the execution. The bill was read twice, and referred to the Committee on the Judiciary.

The Legislature of Massachusetts has authorized a committee to investigate the affairs of the different banks in that State, and the committee sent *invitations* to the several presidents to come to the Senate Chamber, with their books and papers. The presidents declined appearing, and in their turn invited the committee to their banking houses, where books and papers would be quite at their disposal. This offended the committee, and they asked for subpœnas the officers, which they ought to have issued at first, if they wished to have them and their books at the State House.

PRINTING
Neatly executed at this Office.

DEAFNESS.

A York paper sayeth, that a remedy for the restoration of hearing and eyesight is to be had of Doctor Green, Reading, Pa.

It proves effectual when the affliction is caused by nervous weakness, as the remedy gives health and strength to the whole nervous system.

Now—according to the Doctor's practice and principles that

MUCH OF THE ART OF PHYSICK, CONSISTS IN KNOWING WHEN NOT TO GIVE IT,

the restoration of hearing is brought about without giving any Physick!—without giving any medicine! as hath been experienced in the editor's own family as well as in the families of many of his neighbors also. Therefore, and in part return for such great benefits received, we make the above known for the good of our fellow citizens in similar distress.

For a fee of five dollars, assistance is sent—free of postage, for as many as are afflicted in a family including the relative of such family also.

For a fee of ten dollars assistance is sent—free of postage also—for 3 or 4 persons more—in addition—as at times, neighbors, may be, in want of some

And, in case other sickness besides deafness and loss of eyesight happening, help is sent for such sickness without any charge.

The fee pays for all and every help sent to families from time to time.

This is considered a praiseworthy plan.—And in conclusion, it will, no doubt, be very satisfactory for people to know that the assistance is not to be applied to the ears—nor the eyes.

NOT AT ALL.

Consequently no danger whatever can happen to them—no—none whatever.

And during the time that people are using his assistance at home, and learning how to help themselves to restore and recover their hearing—their eyesight, and their health again,

They can follow their customary business;
They can live as usual;
And they can also eat and drink what tastes best.

The following is an extract of a letter from Mr Baker, to the Printer.

MY FRIEND,

The method of using Doctor Green's remedy is innocent—is easy and performs the cure by strengthening the nerves.—My neighbor Jones' wife thought she would try it too, being a long time troubled with weak and sore eyes, together with her deafness, (caused by nervous weakness,) so she sent the customary fee and got some, per mail free of postage, which in a little more than a week made them as good and strong as ever, doing needlework now without spectacle, and now is restored to her eye sight as well as to her hearing.

C. F. BAKER.

N. B. With the remedy the patient receives an instructive and easy way how to preserve health in general, throughout the whole year. This is a great value to families (both to parents and children) and 'tis sent without any charge whatever. It always accompanies the remedy for deafness and eyesight.

Until quite lately people had to go to the Doctor to get help.

This was to them great trouble.

Absence from home and business neglected.

Danger of travelling,

Running the risk of getting sick, from home, which often happened.

Being obliged to stay with the Doctor at times from 1 to 2 or 3 weeks, and sometimes longer.

Generally cost from 20 up to 30, 40, 50 dollars, and sometimes more.

Now—by this new plan of sending help to people, at their homes, all this is saved, and costs so little that 'tis not worth mentioning.

In Press and will soon be Published,
A PRACTICAL TREATISE
ON THE
CULTURE OF SILK,
Adapted to the Soil and Climate of the United States, by F. G. COMSTOCK, Secretary of the Hartford County Silk Society, and Editor of the Silk Culturist. Illustrated by Engravings.

THE interest in all parts of the United States in the Culture and Manufacture of Silk, manifested by the constant calls for information on the subject, has induced the publisher to have prepared a plain *Practical Treatise* on the cultivation of the Mulberry and rearing Silk Worms, adapted to the Soil and Climate of this country and to the wants of plain practical men.

The practical Culturist in this country needs a directory adapted to the Soil on which he plants his trees, and the Climate in which he rears his worms; without reference to Soils and Climates less congenial to their growth. It has been therefore the object of the author to make a treatise strictly practical, omitting nothing of importance to the Culturist, and adding nothing of a useless or extraneous character:

As making the raw materials into *Sewing Silk* and *Twist* is very profitable to the Silk Grower, all necessary information for that purpose will be given:

The work will be published in a duodecimo about 100 pages, in handsome binding—price 50 cts. A part of the edition will be put up in elastic covers to be forwarded by mail.

THE SALMAGUNDI,

AND NEWS OF THE DAY.
EMBELLISHED WITH A MULTITUDE OF
COMIC ENGRAVINGS.

A new periodical, of a novel character, bearing the above appellation, will be commenced on the beginning of January, 1836—While it will furnish its patrons with the leading features of the news of the day, its principal objects will be to serve up a humorous compilation of the numerous lively and pungent sallies which are daily floating along the tide of Literature, and which, for the want of a proper channel for their preservation, are positively lost to the reading world. Original wits and humorists of our time will here have a medium devoted to the faithful record of the scintillations of their genius. It is not necessary to detail the many attractions which this journal will possess, as the publisher will furnish a specimen number to every person who desire it—(those out of the city will forward their orders, *postage paid*)—and he pledges himself that no exertions on his part shall be wanting to make each succeding number superior in every respect to the preceding ones.

THE SALMAGUNDI will be printed on large imperial paper, equal in size and quality to that which is at present used for the Gentlemen's Vade Mecum. It is calculated that more than

500 *ENGRAVINGS*

will be furnished to the patrons of this Journal in one year—these, in addition to an extensive and choice selection of Satire, Criticism, Humor and Wit, to be circulated through its columns, will form a Literary Banquet of a superor and attractive order; and the publisher relies with perfect confidence on the liberality of the American public, and the spirit and tact with which this expensive undertaking will be prosecuted, to bear him successfully and profitably along with it.

The terms of the Salmagundi will be TWO DOLLARS per annum, payably invariably in advance. No paper will be furnished unless this stipulation is strictly adhered to.

☞ Clubs of three will be supplied with the paper for one year, by forwarding a five dollar note, postage paid. Clubs of seven will be supplied for the same term, by forwarding a ten dollar note. ☞ The papers that are sent out of the city will be carefully packed in strong envelopes, to prevent their rubbing in the mail.

☞ THE SALMAGUNDI will be published on alternate weeks—otherwise it would be impossible to procure the numerous embellishments which each number will contain—and the general interest it will afford must be enhanced by this arrangement.

☞ All orders must come postage paid.

☞ Address, CHARLES ALEXANDER, Athenian Buildings, Franklin Place, Philadelphia.

Carey's Library
OF CHOICE LITERATURE.

To say that this is a reading age, implies a desire for instruction, and the means to gratify that desire. On the first point, all are agreed; on the second, there is diversity both of opinion and of practice. We have newspapers, magazines, reviews, in fine, pamphlets of all sizes, on nearly all subjects, which have severally their classes of readers and supporters. And yet, copious as are these means of intellectual supply, more are still needed. In addition to the reviews of the day, and passing notices of books, the people, in large numbers, in all parts of our great republic, crave the possession of the books themselves, and details, beyond mere passing allusion, of the progress of discovery in art and science. But though it be easy to ascertain and express their wants, it is not so easy to gratify them. Expense, distance from the emporium of literature, engrossing occupations which prevent personal application or even messages to libraries and booksellers, are so many causes to keep people away from the feast of reason, and the enjoyments of the coveted literary ailment. It is the aim of the publishers of the Library to obviate these difficulties, and enable every individual, at a small cost and without any personal effort, to obtain for his own use and that of his favored friends or family, valuable works complete, on all the branches of useful and popular literature, and that in a form well adapted to the comfort of the reader.

The charm of variety, as far as it is compatible with morality and good taste, will be held constantly in view in conducting the Library, to fill the pages of which the current literature of Great Britain, in all its various departments of Biography, History, Travels, Novels and Poetry, shall be freely put under contribution. With, perchance, occasional exceptions, it is intended to give entire the work which shall be selected for publication. When circumstances authorize the measure, recourse will be had to the literary stores of Continental Europe, and translations made from French, Italian, or German, as the case may be.

Whilst the body of the work will be a reprint, or at times a translation of entire volumes, the cover, will exhibit the miscellaneous character of a Magazine, and consist of sketches of men and things, and notices of novelties in literature and the arts, throughout the civilized world. A full and regular supply of the literary monthly and hebdomadal journals of Great Britain and Ireland, in addition to home periodicals of a similar character cannot fail to provide ample materials for his part of our work.

The resources and extensive correspondence of the publishers, are the best guarantee for the continuance of the enterprise in which they are now about to embark, as well as for the abundance of the materials to give it value in the eyes of the public. As far as judicious selections and arrangement are concerned, readers will, it is hoped, have reason to be fully satisfied, as the editor of the Library is not a stranger to them, but has more than once obtained their favourable suffrages for his past literary efforts.

TERMS.

The work will be published in weekly number containing *twenty imperial octavo pages* with double columns; *making two volumes annually*, of more than 220 *octavo pages, each volume;* and at the expiration of every six months, subscribers will be furnished with a handsome title page and table of contents. The whole amount of matter furnished in a single year will be equal to more than *forty volumes* of the common sized English duodecimo books, the cost of which will be at least *ten times* the price of a years subscription to the "*Library.*" The paper upon which the Library will be printed, will be of the finest quality used for book-work, and of a size admirably adopted for binding. As the type will be entirely new, and of a neat appearance, each volume, when bound, will furnish a handsome, as well as valuable, and not cumbrous addition to the libraries of those who patronise the work.

The price of the Library will be *five dollars per annum* payable in advance.

A commission of 20 per cents, will be allowed to agent, and any agent, or postmaster furnishing five subscribers and remitting the amount of subscription shall be entitled to the commission of 20 per cent or a copy of the work for one year.

A specimen of the work, or any information respecting it may be obtained by addressing the publishers post paid. Address
