SEVENTEENTH YEAR. - No. 6.

FROSTBURG, MD., SATURDAY, OCTOBER 29, 1887.

WHOLE No. 838.

grand jury. It knows only this—that were it in the place of the Potomac coal company it would at all hazards expose without reserve the scheme which brought that company unjustly under the censure of the grand inquest.

It would at least show up-1, That the system of "dockage" is the only immediately available method to secure marketable coal with opportune certainty.

1. That in the uniform shipment of such coal the miner is as much interested as the company, more particularly the honest, careful, consci- berland on the result of an affair of entious miner.

3, That "dockage" in some form or other is the penalty for all delinquen- cessity for a semi monthly pay law. cies in all commercial exchanges the

world over. 4, That the Potomac and other companies whose employees compel them to protect themselves in part, pay nearly every month for digging

more coal than they have to sell! We believe the last point can be established by both oral testimony and the records, which, in the judgment of unbiased people, ought to be tracted gangrene in their fierce strug- | stewardship in No's 1, 2, 12 and 14? gles with the ghost of bad air, the And after they found that the phantom of incorrect weight, and the 'people's money" was thrown away little new-born spook of semi-monthly on supervisors and boys, did they

next grand jury, should enjoy an supervisor abolished? opportunity to sift this business for about a day, or until the gauzy screen drops out of the sifter.

COMPLAINT is made that boys are worked on roads and receive the pay of men, and that the roads do not receive the amount of work they should for the amount of money

appropriated .- Grand Jury Report. Is that not the rule to be observed under the coming regime? Is not all labor to be elevated horizontally? Is not the young to have as much wages as the old, the weak as much as the strong, the small as much as the big, the female as much as the male, the ignorant as much as the learned, matter as much as mind, the unskilled as much as the skilled, the poor as much as the rich? Did not the grand jury reflect that there is to be but one favored class in the society of the future—the population of the penitentiary? Did the jury forget that the jailbird element is to revel in aristocratic idleness in an era when no convict-made goods shall compete with the fabrics of honest toil?

The jury overlooked another consideration, too-that the people who do the work are to be the sole judges of the "amount of work" that should be done for the "amount of money natural gas out of one of the last appropriated."

endowing the miners of Potomac would have characterized the report: mine with the prerogative of either altering or repealing the "dockage" regulation, which prevails there, to suit their own sweet will.

Perhaps, however, there is some difference between rights of roadworkers and miners that we wot
