passed the days with wonderful celerity. At last we reached Athens. It was a circle, wrapped in what here we proposed to do our picnick- seemed to be a sheet, no hat, ing, here we would cast our tablecloth upon no shoes, arms bare; we were the works of Phidias, and eat our canned the very realization of a salmon in the grove of the Academy. The sacred cellar of the Parthenon would resound with our laughter and the seats of the archons in the theatre of Dionysius would serve as tables for our modern indigestibles -and we carried out our programme to the letter. We hardly realized the vengeance of those antiques; we were inflamed with the knowledge of this century, with the astuteness of New York civilization; we knew not

the deep shrewdness of the early Greek.

One day, the last it can be readily understood of our desecrations, we had seated ourselves upon the very spot where stood Minerva centuries before, and there in the face of the goddess, as it were, we munched our sandwiches, opened up our boxes of sardines and drank our ordinaire with the gusto of American bon vivants. Clark always was a meddler, and upon this occasion, meal in hand, he walked about amid the mass of fallen columns and the remains of Elgin ruins seeking some memento of the place. Suddenly a cry of joy escaped him, and hurrying toward us we saw him with two bottles in his hand. And the other label says, 'Of this fluid take five drops and one will be restored to his natural self.' A great scheme; a trip to old Athens free of expense. Who'll go the five drops with me?" "I'll go you," said Clark and I in a breath.

"I want to see Pericles." "Don't touch it; perhaps it may be poison,"

said Mrs. Stephens, womanlike. "Try it on that dog first and if he lives through it we'll all take it," Miss Clark suggested. I thought I could detect an unwillngness on her part to let me make the trip

We caught the lonesome dog that was smelling about us as unconscious of his ancient destiny as he was of his supper. We opened his mouth and carefully located five drops on his tongue. When we released him he made no effort to run away-he stood and looked at us; his eyes grew larger and ger, and very soon we recognized the pure old Molassion dog of the days of Aspasia, and he gamboled about and barked in his fifth-century B. a view of advising further. What was their surprise to learn from all of them, thousands in number, except such as had removed their residence, that in every case where used according to directions the cures made by the great remedy had re-

Cheerful renewals of their statements were made which disclosed the remarkable showing which no other similar remedy has ever shown-that the cures were those of chronic cases of long standing-cases where crutches and canes had been used.

What is more remarkable still, the cures were prompt and positive without the recurrence of pain or discomfort in a lapse of years as long as its own existence and after the disease had ravaged as long as thirty

be appreciated. But to the facts: Jany. 17, 1883, Messrs. George C. Osgood & Co., druggists, Lowell, Mass., write: "Mr. Lewis Dennis, No. 136 Moody St., desires to recommend St. Jacobs Oil to any afflicted with rheumatism, as he has obtained benefit by using it, but he desires especially to say: "Orin Robinson, of Grantville, Mass., a boy of 12 years, came to his house in the

summer of 1881, walking upon crutches. "His left leg having been bent at the knee for over two months, and could not be bent back. He could not walk upon it. "Mr. Dennis had some St. Jacobs Oil in the house and gave it to him to rub on his knee. In six days he had no use for his crutches, and went home well without them
