Concerning the trade in market the New York Engineering and Mining *Journal* says:

There is nothing new to report in bituminous coal. The market moves along in the same steady manner as for a long time past, with no indications of a change. In the West reports of bituminous coal indicate as rapid an increase in consumption as of anthracite. Prices remain as heretofore, namely: $2.60 f. o. b. Baltimore and Georgetown, and $3.25 for New York Harbor. In Boston the movement in bituminous coal is without change. The Boston Steam Heating company did not buy any bituminous finally, although they proposed to do so at first. They bought 20,000 tons of pea, probably at a very low price, in view of the present over-stocked market on that size. It is said that the success of the New York Steam Heating company with pea coal induced them to buy it in preference to bituminous. The quotations on bituminous remain $3.25@$3.50 delivered.

And the Mining *Record* of same city: The bituminous output continues large with comparatively fair activity in the market, especially in placing this description of fuel at points where it will be required later ahead.

***The Mines.***—The JOURNAL was over Monday at the new double-entry mine of the Barton and Georges Creek Valley coal company, and noted a vast improvement since its visit nearly a year ago. Then there was no railway, nor dump-house. Now there are both, and, besides, quite a village has grown up around the mine. This double opening is unique in mining adjustments in this county—singly and altogether the best on this continent. There may be in this country, it is true, mines with two openings, but nowhere so close together—60 feet. Running parallel, they are connected at proper intervals by diagonal cross headings, and thus accomplish the double purpose of perfect ventilation and absolute prevention of collisions. The empty cars enter the eastern heading, and, loaded, make exit from the western. Last year the outcrop had been barely penetrated; now each heading is about 1,500 feet long. Then only a few miners had place for work; now about one hundred are sending out coal equal to the best produced in the best region in the world. The JOURNAL found less water than is usual in mines, especially during and after wet seasons, such as we have had this summer. But the tracks are laid high and the drainage is made and kept in perfect condition. Archie Stewart, of this place, mining boss, is a popular and efficient officer. Above him, Owen Hitchins, resident superintendent of the company, commands all operations with a skill and energy which has laid the foundations of one of the best and most profitable enterprises in this county.

***What is in a Ton of Coal.***—A careful estimate by a New York chemist of the contents or constituents of a ton of coal presents some interesting facts, not familiar certainly to unscientific minds. It is found that, besides gas, a ton of ordinary gas coal will yield 1,500 pounds of coke, 20 gallons of ammonia water and 140 pounds of coal tar. Now, destructive distillation of this amount of coal tar gives about 70 pounds of pitch, 17 pounds of creosote, 14 pounds of heavy oils, about 9½ pounds of naptha yellow, 6¾ pounds of napthaline, 4¾ pounds of naphthol, 2¼ pounds of alizarine, 2¼ pounds of solvent naptha, 1 1-5 pounds of aniline, seventy-nine hundredths of a pound of toludine, forty-six hundredths of a pound of anthracine, and nine-tenths of a pound of toluches—from the last-named substance being obtained the new product, saccharine, said to be 230 times as sweet as the best cane sugar.

***Church Matters.***—The ladies of the English Baptist church concluded Monday evening a very enjoyable and financially successful oyster entertainment of two nights' run. As part of the proceeings we are informed that a silver cake basket was awarded Mrs. Robert Scott; a silver preserve dish to Miss Luey Fisher, and a quilt to Mrs. Mary Yates. The suppers were held in the building formerly occupied by Mrs. Mary Hartman as a shoe store.

***The Weather.***—Last Saturday the first sprinkle of snow assisted in whitening the whiskers of the oldest inhabitant at a date earlier than that venerable individual can remember. The temperature thus indicated has been very well maintained ever since. It is now propitious, however for a free and untrammelled discussion of the tariff.

# MINING JOURNAL.

A WEEKLY NEWSPAPER.

FROSTBURG, MD.....OCTOBER 6, 1888.

## ADDITIONAL LOCAL ITEMS.

***Outside News.***—On the 1st inst. Jeremiah McKenzie, a respected citizen of Garrett county, and a devout member of St. Ann's congregation, died suddenly.

***Religious.***—Rev. Dr. Robert N. Bear, of Baltimore, a Methodist Episcopal minister who died Friday of last week in that city of typhoid fever, was a brother of Mrs. L. T. Widerman, formerly of this place.

Rev. W. A. Shipman, former pastor, will preach in the English Lutheran church to-morrow (Sunday) morning and evening at the usual hours.

***Teachers Institute Organized.***—In obedience to a law of the State Board of Education the teachers of Frostburg and vicinity met on Saturday morning, Sept. 29, in Public School No. 1, and organized an Institute.

The paper below is a transcript of the proceedings after stating that the organization was effected by the following election:

*President*—A. A. Doub.
*Vice President*—Clayton Purnell.
*Secretary*—Ed. A. Browning.

The Institute then chose the following committees:

*Program*—Misses Belle Wilderman, V. J. Lee, Anna McAlister and Messrs. Clayton Purnell and A. W. Dewitt.
*Music*—Misses Venie Fuller, Kate Bath, V. J. Lee, Kate Porter and Mr. Purnell.
*Executive*—Messrs. Patrick Rourke, Stotler, and Miss Estelle Jeffries.

The committees will meet and organize by electing their chairman and secretary, and report programmes at an early date. After disposing of all preliminary business and discussing several points which seemed essential to the success of the Institute, a motion was made and carried to adjourn to meet Saturday, Oct. 13, at 9 o'clock a. m.

ED. A. BROWNING,
Secretary.

## LOCALS IN MINION.

**Publications.**—The decline of suckling power among American women is the theme of a thoughtful article by Dr. L. M. Yale in the October number of *Babyhood*, which ought to command a wide audience. There is undoubtedly a marked diminution of the milk-giving power among the women of our land, and the medical editor of *Babyhood* attempts an explanation of its causes, which will be read with great interest. "Laxative Food," by Dr. Jerome Walker, and "Excessive Wax in the Ears of children," by Dr. Charles H. May, are other articles which will prove valuable to all mothers. There are also seasonable editorial remarks on proper clothing for children; an amusing article on "A Novelty in Nurses;" letters on the danger from chewing gum, on the proper way of administering medicine to infants, the care of delicate children, etc., etc. The "Nursery Problems" deal with "Long and Thick Hair as a Cause of Weakness," "The Turning in or Out of the Toes," "Mal Nutrition," "Sore Mouth," "Black-Heads," and other interesting topics. Miss Frances E. Willard gives her own version of what she thinks on the doll question, and closes a discussion in which the whole country has been interested. 15 cents a number; $1.50 a year. *Babyhood* Publishing Co., 5 Beekman Street, New York

## Now Business Locals.

**Renews Her Youth.**—Mrs. Phoebe Chesley, Peterson, Clay Co., Iowa, tells the following remarkable story, the truth of which is vouched for by the residents of the town: "I am 73 years old, have been troubled with kidney complaint and lameness for many years; could not dress myself without help. Now I am free from all pain and soreness, and I am able to do all my own housework. I owe my thanks to Electric Bitters for having renewed my youth, and removed completely all disease and pain." Queen Victoria has a remarkably fine head of hair, for a lady of her age; but her son, the Prince of Wales, is quite bald. Had he used Ayer's Hair Vigor earlier in life, his head might, to day, have been as well covered as that of his royal mother. It's not too late yet.
