The library collected through forty years of discriminating selection and rejection is believed to be the choicest assemblage of intellectual achievements in the county. He had read, and re-read the most profound until it mattered little with some apt and conclusive observation from some standard literary of writers of the Macaulay type. Carlyle he called "jerky," and in general his criticisms accorded with those of expert doctors of rhetoric. Much of his reading was theological, whence he strengthened the strong religious bias with which his life began. His faith in the immortality of mankind and the endless triumph of a good life grew up in his mental constitution with all the strength infallible logic can lend.
