The same miserable policy is again adopted towards us, and at a time too, when the presence of the Officers of the Company and their most active efforts are required to keep the works in progress - This too from men professing to be friends of the Canal - I believe there is more in this than meets the eye - If it not political, it is at all events to strike a blow at Individuals -

My report would have been sent in before this - but I have had to wait for Mr. Fitch, which has required more time & labor than was at first calculated - They will be presented by the 23 or 24th inst. - Acting on the principle which has governed me since I have been at the head of the work, I have given a plain & candid statement ~~statement~~ of our condition & shown to the State the necessity of prompt and efficient action, if the completion of the Canal in any reasonable time -

I have received no official notice from the Committee and when it comes, shall as heretofore furnish [illegible] descants under oath. [illegible] as may be required -
