

Easton Friday Night.

My dear Sir,

Your letter of this morning by Doctor Thomas is just received and I regret to find you have taken what I intended as a jest, so seriously — I am very well satisfied with the Cows, but really wished to know their age and Character as well as the young Bulls, which was my chief object in writing to you by the Doctor —

If my memory serves me right, in our walk to look at your Cattle, the white cow was the only one you particularised as wishing to see, though you mentioned you desired to see several, being over stacked.

Proceeding on we next took a view of the young Cattle & you pointed out one or more very handsome heifers as the offspring of the white Cow, I thought not very promising in looks, her giving milk, & being the parent of such a heifer I thought she would I see hope will answer as I before said all my ends, though she
