

express - ^{my} ^{my} ^{my} I never knew want until
this winter - in the full extent of the word -
but this is to myself - I bear up pretty well
striving to keep in mind, that it is all in the
hands of God & not of Man - but for that
conviction it could not be supported -
we keep pretty well in health - a blessing I cannot
be grateful enough for -

Give my affection to Sister & the
girls - Tell the little boys I wish I had
anything to send them - Hoping to
see you soon when we will talk & are
very all matters - Believe me truly your
