

that what is to be done for Emerson must not be delayed until the hot weather as his health will become worse the longer it is delayed.

I have thoughts of writing to his friends in Boston to see if they can give him any assistance as he stands in need of it. Let me hear from you as early as it is convenient. Emerson and Holly unite with me in best regards to Mrs & yourself and family.

If I get the things for Emerson I can have them made up in time for him.

Believe me with sincere Res^t and Esteem y^{rs}
Mary E. Nicholson.
