

My dear,

I feel very much obliged to you for your kind intentions, and had it not been for an engagement with Mr Emory, would have quartered upon you without ceremony - I will send the cow up on Tuesday morning, and advise you not to separate the calf from her for a few days, until she becomes a little accustomed to her change of abode - The calf has had all the milk hitherto, but is not permitted to run with her - You will find her valuable as a milker, altho' not a beauty - I rode to 2. town for my papers to day, and was so affected by the sun, that I have had to confine myself for the rest of the day; & begged the girls to persuade Ward to remain until the cool of the evening - Mrs Brown is also very complaining, and joins in affectionate regards with belief
Yrs very truly,

Robt Brown
