John Vilghman Prop^r Barre October 8th 1841

Dear Sir, above you have the sales of your
white & yellow Corn - the white we had to sell to the
meal men to obtain the price it sold for - the yellow
we could get but 64 1/2 - and at that price it sold one
or two cents per B higher than it at present is selling
for - and good Corn will not improve in price at
so low market - and you have your note
in the amount due from the above sales - the balance
of the proceeds of your Corn - we have deposited to your credit
