

EVERYBODY'S ADVERTISEMENTS

*A Game of Carroms now and then,
Is relished by the wisest men,—
And all their relatives.*

This fine game, which we originated,
is found in most attractive form on the

CROWN COMBINATION GAME BOARD

(which we make in several grades and styles)

on which 20 to 30 games can be played, according to the style
of the board.

Space does not permit us to expatiate on the attractive features of this fine board. It is
a veritable mine of entertainment and will keep the boys home evenings.

THE ECLIPSE COMBINATION GAME BOX

Price \$1.00, Delivered

15 fine games, both old and new, in most attrac-
tive form. The above are but two features of
our extensive assortment of games and acces-
sories. We are headquarters along this line and
should be pleased to send catalogue giving more
extended descriptions.

BOTH the DAISY
and SENTINEL
rifles shoot as
straight and as well as
any gun made, and are
free from danger, smoke
and noise. With a little
practice, any boy can
become a crack shot.
Either will afford per-
manent amusement of an
innocent and practical
kind; the possession of a
good gun helps to make
a boy a manly boy.

The Daisy Air Rifle

is the best gun made. It
has black walnut stock,
handsome nicked steel
barrel, globe sights, in-
terchangeable parts. Our
"Sentinel" rifle (price
\$1.00) will shoot either
darts or shot, while our
"Daisy" Repeater (price
\$1.25) will shoot 48
times without reloading.
(Enough shot can be
bought for 10 cents to
shoot the rifle 1,000 times. Our
price for darts has been
reduced to 35 cents per dozen.)

If your dealer will not sell you a "Daisy" or "Sentinel"
(be sure the name is on the stock), send us his name and we
will send you either from our factory, **charges prepaid**,
upon receipt of price.

The true sport looks to motor progression for the
bicycle that is practical and reliable—minus the

push. This means high speed and "get
there" under circumstances that would
side-track an automobile. Long journeys
to and from camp on rough roads and
narrow tracks are made possible without
a pound of exertion by means of the
Orient-Motor-Bicycle.
