Col. Richard C. Johnson

Dear Sir,

Your invoice of the 21st instant is received and enclosed we send you the letters written for.

The wheat crop will command as good or better price during the month of June than it will any time during the season. After that time wheat will begin to come in & have the tendency to lower the price of corn. Your wheat was sold for the highest market price by Col. Hubert himself. It was a fair article. It has been constantly declining & would not bring more than \$1.70 to day -

Yours Respectfully

Herbert & Hairston
