A 15-TON RECORD ON A No.

ANUFACTURING COMPANY.

men :—I have used a No. 3 American Evaporator eight years and have been very successful hours without trouble. My commission merchant says: "Goods made on an American are su quality of apples and can be distinguished at a glance." I made last season (including chop sto cts. If I enlarge capacity next season I will get an American in preference to any other machi Yours respectfully,

No. 4. PRICE \$350.00.

Length, 18 feet. Galvanized Wire Trays. Capacity, 80 to 100 bushels. The evaporating flue consists of two separate and independent trunks, both as to tray management and heat. Has two extra heavy and powerful heaters. Any kind of fuel can be used. Shipped knocked down. Easily erected. No brick work required. It is a quite successful rival to any of the Evaporators catalogued at double its cost. If properly erected, so as to secure easy any convenient access at front and rear, with furnaces in cellar, it is the most complete rig for its cost on the market. Surpassed only by our Improved No. 4 or Climax.

AMERICAN MANUFACTURING COMPANY.

CLIFORD, N. Y.

AMERICAN MANUFACTURING COMPANY.

CLIFORD, N. Y.

Sirs:—We have used one of your No. 4 Evaporators two seasons and it has proven to be all you claim evaporated three acres of raspberries, forty acres of sweet corn and nearly 4000 bushels of apples, making a g which we receive the highest market price. We did not run the machine near to its full capacity on berries sweet corn evaporators in this section. Have had five years' experience, and can make a grade of goods sec we retail at 16 cents per pound. We take family orders from sample, and in this way last year we sold 40 We will evaporate 50 acres this year.

Very truly,

arts on Evaporators are from experts in the business and from t ate reports and experience, and useful for the tables and inform nd rated upon the apple, which is almost universally named for cent. in moisture. Articles like Coffee, Corn, Tea Barks, and in capacity per day.

grow any fruit suppose you make 50 to 100 per cent. by ou

NOW is the time to make arrangements to make money out of the Apples, Peaches and Berries that after while will spoil on your hands.
