RHODE ISLAND

PERKINS HORSE SHOE COMPANY.

Providence, R. I., Feb. 1, 1895.

We offer this season the new PERKINS CALKED SHOES, front and hind, ready fitted with solid toe and heel calks, made from the best selected soft steel, and in sizes from 1 to 5 front and hind. The advantages of this line of shoes to the consumer and shoer are too plain to need any explanation.

The shoes are made in two patterns; the PERKINS CALKED, with the regular toe and heel calks; the PERKINS SIDE WEAR, with the toe calk and one heel calk, regular size, and one long heel forming a side calk.
