Dear Sir

I have your letter covering check in Baltimore for \$6.87 - balance on R. E. C. Sowers purchase of the Jacobs Farm - From the amount \$10. is deducted for advice in regard to the Butcher claim, which is all proper, if the claim is being pursued - but if it allude to the few words which passed between us, in 1850 - October when I had the pleasure of seeing you, should suppose it requires explanation -

Pray oblige me by writing me a few lines, to advise me, what has been done & what is doing in this matter - From delicacy - Mr Stobson objects to interfering with Mr Harrison & you as his partner & from that time, I know not if any advance has been made in the suit, altho years back, Mr St. advised me that it would be brought to a close in a few months -

I hope to hear from you at an early date with such ~~advocatory~~ information as will enable me to put the claim in active prosecution & would be obliged by your talking over the matter with Mr Stobson before writing -

Yours Ruff  
W. T. Trumble
