

D^r Sir

I this moment rec^d. your favour of the 18th Instant by W^m M^r. Calister
boy and observe the contents. I cannot think of selling of the wheat
at the present price and if your want of money is such as to press you
to sell now it must be at your own request and you must replace the
like quantity and quality when I call for it (say one Hundred Bushels
weighing Sixty pounds each) Nothing but a wish to Oblige you
would induce me to put it on those terms. I have wrote to W^m M^r.
by the boy requesting him to deliver this letter to you before he starts
to Baltimore as I wish a perfect understanding of the matter -

If the terms are not agreeable to you I had rather he should bring
it into the Mill House Creek & deliver it into my Granary than sell
now

I am Respectfully your Obed^t
