

I am glad to hear of your good health and your
family & the general blessing afforded thereby to the
citizens generally of your county; May it long con-
tinue; and yet I must say my mind fully ac-
cords with your ideas as to the universality of
the Cholera; I hope with you that when
and whenever it visits a community, here
after, ^{it may} be in a mild or mitigated form —
your message to W. Haueking relative to the
Sheep has been made known to him; He desires
his respect & thanks to you, and will write
you as to the time he wishes them sent over
he leaves this in a day or two for Norwich, on
his return you may expect a letter from
him appointing a day when to send them over.
I hear that J. N. Steel, R. H. Goldborough and
A. Constable are the elected candidates for your
Shore — success to them — I have in a letter from Mr
Chambers been informed of the nomination of the
delegate ticket for 2 terms, success attend them likewise
and I am not without strong expectations we will
do well in your county; but to ensure success we
know it is absolutely necessary to be active and zealous. A
united and harmonious there with harmonious action must
have its effect & will accomplish much — I & mine & pray

that I see Anns may move herself to be on
the side of the Constitution of her County; and
opposed to the Richless administration, false rule
of Andrew Jackson — We have not yet
made out our ticket for the Legislature (young
Walsh will be one of the candidates, who the other
will be, no one can tell, we find great difficulty in the
selection, many have been shaken of — my own opinion is
a rather I have just rec^d the idea from one of Mr. H. M.
(who by the by is at the head & front of all our movements &
is not saying too much for him, when I give it as my
most candid opinion; that without him nothing would
be) that our old substantial friend Luke Tarr
is prevailed on to allow his name to be used ^{if} he can do
so, depends on it Jacksonism, will be frustrated
here; would not this be a glorious triumph? and with
what mortification & dismay would it strike terror into
the hearts of her enemies, to witness the regenerating of the
City of Battermore!!! — Our friends throughout
the County write in the most inspiring manner.
I do hope most sincerely that J. A. Beazley may
beat Sir Charles for Congress; for reasons too
numerous to mention — I have in a
letter giving me
White Corn hble Pt
to gratify & him
remember me to
respectfully & truly
