

may help some service to you I think the
law shows that a non resident is not
entitled to any favour beyond a resident
unless he can show that the case is
distinctly between Merchant & Merchant
& concerning trade or merchandise and
if the debt comes into the state under
the rule in Rogers & Bayly the statute
will commence & if I serve there
year off will be barred, I have been
very happy as I am much engaged
to say but supposing that if this was
to be for you it must be sent to you

Very Respectfully

Dear Sir
