

on main road to Greenetown. What road. I don't know.
Also shows, ~~that~~ origin of ownership of Thomas
was by patent, except as to the first two tracts.
Nothing more can be found here, then, as to these
tracts. The records at Annapolis might help.

The first two tracts were obtained by said Thomas
from Charles Lobb, 1769 - "Silghman's Addition, 100 a
"Adventure - 7a.

Ind question:- You are mistaken when you
say Robert Emory bought Cintra of Thomas.
I looked at the will of Robert: it says the
tract was purchased of James Silghman.

You have, I presume, a list or rather ~~abstracts~~ of wills
of all Emorys - Have you ~~extract~~ of deeds to &
from them? There are many & the time to
make them might be considerable, yet extracts
giving names of the parties, names of lands, date
&c., might be of value?
Have you list of those who died intestate?
The records as ~~to these~~ are incomplete, some
are missing, yet the list might be of value
to you -
Yours truly
Madison Brown.
