

In the division of the Cloverfield Estate be-
-tween Mr & Forman & E^d Mr Forman my impres-
-sion is that we gave in the upper part to Mr E

I Mr Forman as much a gain as there was
in the lower part and if there should be five
or ten acres more either in one part or the
other we thought it should make no difference
to either. we came to this conclusion from
what we heard of the quantity of land supposed to
be there and from the plat we had.
