

UNIVERSITY OF PENNSYLVANIA.

Philadelphia, September 5, 1918.

Chief of Ordnance, U.S.A.,
War Department,
Washington, D. C.

Dear Sir:

Mr. Lloyd Emory, who is applying for a commission in the Ordnance Department, is a graduate of the Department of Civil Engineering, University of Pennsylvania, of the class of 1908. He bore an excellent record as a student. Three years after graduation he prepared an acceptable thesis, relating to practical work on which he had been engaged in the interim. On this he was given the post graduate degree of C.E. He has maintained an excellent record as a practical engineer. I bespeak for him your serious consideration of his application.

Yours very truly,

H. C. Berry,

Professor of Materials of Construction.
