

Camping in the (1) mountainous area of the
 higher & its volcanic position 13 or 14 miles
 behind that. Over 3000 miles
 back of our camp to summit of
 the volcanic mountain of volcanic
 origin.

Geographical

The rough and storm in the
 photograph and a rough wagon over
 1000 ft. to the ocean. Most of all
 the improvements that have been made
 the last year out. We have been
 from hauled over 4 1/2 miles to
 the station in ordinary form
 the road after getting off
 the main highway as a good short
 road. The deposit tunnel is not
 over 3/4 of a mile from the
 tunnel. The deposit tunnel should be
 considered if delivery can be
 made to point of consumption in
 that manner.

Conclusions

The prospect is first a prospect
 and for an operating company that
 could make a satisfactory lease
 is another further down over
