919 Harrison Bld
Phila Pa
April 24-19

Reg:— Bristol Tenn. Trip.

I spent the 22 + 23d in what is generally know as the Kenstourg or Elizabethton bauxite field.

The three properties visited

(1) Watauga Mining Co.
(2) Southern Minerals Corp.
(3) H.E. Graves tract

The Watauga mine that was opened in 1913 by the National Bauxite Co is now owned by the Dressinas Chem. Co. Boston. Cobbe is in charge but mine is not being operated. The So. Minerals Corp. have about ers surrounding the Watauga Co y have done a world of diskope- ment work and I believe are not about-ready to give up. The Graves property I do not con- sider a good prospect. Fuller report will follow
