April 30-19

Am

Reg:- Mr. Benjamin Huger

I spoke to Huger yesterday about a possibility of a trip to So. Amer. He is quite keen about going but like practically every man I have talked to he is anxious to know what he is to do when he gets back.

He is a graduate of the Law School University of Virginia 1914. He practiced law in a general law office for 3 years and then entered the legal department of the Norfolk & Western R.R.

At the beginning of the war he entered private. I believe an attack of pneumonia prevented him from going. On recovery he went to an officers camp & just before the signing of the Armistice was commissioned a 2nd lieutenant in infantry.

The N & W gave him his job back with a slight advance in pay. He receives \$200.00 per month.

is anxious to get out of the office work he is doing
