C.B. Tyron one of my old men has just dropped in. He only returned from France several days ago, as a lieutenant of engineers. Tyron went to Princeton Univ. and Civil Engineering. He worked for me during the winter of 1913-14 on R.R. work. and almost constantly after that until I went with the Al.

in 1916

I may find I need him down south if so I will cable.
