

BY MR. WHITELY:

Q What steps were taken by you subsequent to this decision, May 15, 1933, to perfect your transport of title to this property?

A I proceeded to British Guiana and on the arrival of the decision, it arrived some days after my arrival, the local court allowed the passing of title from Mrs. Hubbard to myself on the two properties.

Q Did you make any further examination of these two properties?

A Not at that time.

Q When did you do so?

A I did not make any further examination of the properties to determine the amount of bauxite on them. I visited the properties on several occasions, first in order to ascertain whether wood was being cut or stolen from the property, and the occasion of my second visit was to ascertain whether a boundary survey had been made by other parties than my own solicitor.

Q You visited the properties on several occasions?

A Yes.

THE EXAMINER: Here is a question I want to ask

of you. Am I to understand that you bought or took the option on one thousand acres of one property, and five hundred acres of another property, for the Ulliein people, bought

Cyl. 17.
