

Q And you know that before these negotiations that you have described this morning, I mean the negotiations of this morning, that you were speaking of this morning.

A At the time I was manager of the company?

Q Yes.

A I should say it would have been.

Q That is a matter of common sense, Mr. Easley?

A I should say so, yes.

Q When do you mean acquire them?

A Lands there?

Q Now in your opinion as a bauxite man, was it not good policy for the Denetara Bauxite Company to acquire the lower Senario and the Aurora property so as to block out these ships of bauxite land of the Denetara Bauxite Company.

Q So that the tract marked lower Senario and the Aurora tract were just interposed and separated, the various owners?

A That is correct.

Q So that the tract marked lower Senario and the Aurora was bauxite property at that time owned by the Denetara Bauxite Company.

Q And immediately south of Aurora is Cape Star? That also is another purple tract which is marked Aurora.

A Yes.

Q Aurora property you have talked about.

A The property under discussion.
