

Q When you left did you believe you were employed by the Republic Carbon Company or was not employed?

A I felt I was not employed, that I could have been possible on certain terms.

Q Did you mention the terms to Mr. Davis?

A I don't remember that we discussed detail figures.

Q Your belief was just the matter in your own mind?

A It was.

Q You didn't discuss terms of employment at all, did you?

A I presume we did because that is what I went there for.

Q You don't remember that?

A Don't remember the words, no.

Q Or the substance of it?

A I remember the feeling I had when I left the office.

Q What was that?

A The feeling was that if I had been or was in the employ of the Carbon Company that I was not going to continue.

Q That is that Mr. Davis didn't care to continue that employment, was that your feeling?

A My feeling was that Mr. Davis did not care to continue my employment.

Q What produced that feeling on your mind?

A (continuing) At a figure which was equal to what I was receiving from the Uihlein group.
