

mercially available bauxite in the world?

A Outside of the aluminum company I believe I have as much data and as much knowledge about the situation as anyone.

Q Do you think you are competent to express that opinion?

A I think anyone has a right to express an opinion.

Q You are not certain even as to your own competency to answer this question?

A I have assurance in my own capacity otherwise I would not be talking.

Q Is there any commercially available bauxite in Greece?

A There is a deposit in Greece. I do not know that it is commercially available.

Q Where is it located in Greece?

A It is located on the eastern coast of Greece, not far from the Corinth Canal, if you call it bauxite.

Q What do you call it?

A It may be bauxite, it might be diasphore.

Q So you say there is no commercial available bauxite in Greece?

A I say I don't know of any commercial available and from analysis I would say it was diaphore.

Q How many tons of it are in Greece?

A I remember seeing an estimate but do not recall the figures.
