

figures.

A I remember seeing an estimate but do not recall the
Q How many tons of it are in Greece?

from analysis I would say it was disphore.

A I say I don't know of any commercial available and

in Greece?

Q So you say there is no commercial available bauxite

A It may be bauxite, it might be disphore.

Q What do you call it?

from the Corinth Canal, if you call it bauxite.

A It is located on the eastern coast of Greece, not far

Q Where is it located in Greece?

is commercially available.

A There is a deposit in Greece. I do not know that it

Q Is there any commercially available bauxite in Greece?

not be talking.

A I have assurance in my own capacity otherwise I would

answer this question?

Q You are not certain even as to your own competency to

A I think anyone has a right to express an opinion.

Q Do you think you are competent to express that opinion?

date and as much knowledge about the situation as anyone.

A Outside of the aluminum company I believe I have as much

commercially available bauxite in the world?
