

Q How many?

A Running into a good many hundred thousand tons.

Q What is the size of the various deposits, how many tons?

A present time.

A I cannot recall the Coast name or the places at the

Q Where are they?

A A number of deposits on the Hawaiian Coast.

Q Where?

A There is.

Q Does that. Is there granite in Hawaii?

A That is the answer, I will let that rest.

Q Is that the best answer that you can give?

A suitable for making metal.

A I have said from the analysis I do not believe it is

Q a possibility of that deposit without having seen it?

Q Could you or could you not testify as to commercial

A governmental reports and on the analysis given.

A I could only express an opinion on the published

Q Then you cannot testify because you have not seen it?

A I said before I have not seen it.

Q Did you ever see them?

A I could if I saw the deposits.

Q You cannot testify as to the deposits in Greece, can

particular deposit?
