

Q You just made a report here in the form of sworn testi-

mony did you not? How how much commercially available

barium ore is there in the County of Belmont?

A I know that when I went to try to buy ore there I

didn't get very much.

Q Do you know how much there is there?

A Do you mean in the whole of Belmont?

Q Yes, about how much?

A I have said it probably runs into millions of tons.

Q How many millions?

A I didn't say "commercially available ore" though I

said there was ore in Belmont.

Q I am trying to get you down to something specific?

MR. WHITELY: What are you asking for?

MR. SMITH: The number of tons of commercially

available ore in Belmont.

THE WITNESS: Available to the general public.

to myself, if I wanted to go over there and buy?

Q Yes, if you know that?

A I don't believe there is any there available if I

went there to buy.

Q Why?

A Because it has already been bought.

Q By whom?

A By various interested parties.
