

Montenegro? How much per ton would it cost to mine that ore in them a sample of the ore to try it.

A No one could tell that without analyses; without giving is recoverable per ton from that Montenegro bauxite?

Q Have you said you can tell the amount of alumina that A I said I cannot give you tonnage figures.

there?

Q What is the size of any particular deposit you know of A I cannot give you definite figures on that.

Q How far is the bauxite from the Adriatic Sea? A I don't remember that.

Q Get the name "Montenegro", meaning "Black Mountain"? A Is that the range of mountains from which that country Adriatic Sea.

A Located in the range of mountains that parallel the Q Can you tell us where the bauxite ore is located? A I cannot.

as the tonnage of bauxite ore in that country?

Q How then, coming back to Montenegro; you cannot give A I do not know.

Montenegro; are they metal producers?

Q I forgot to ask you who owns those bauxite deposits in A I cannot give you the figures; the tonnage figure on it.

How much?
